

Understanding and Supporting Carers

Carers NSW is offering free training for service providers from government and non government services. The aim of the training is to:

- Build the capacity of both government organisations and non government service providers in health and community care to support and work with carers, and
- Raise the recognition of the role and value of carers in both government and non government service provision.

This is a 3.5 hour interactive education session focusing on identifying who our carers are, profile of carers in Australia and NSW, the diversity of the caring experience, the impacts of caring, and what carers want and need to support them in their caring role.

The session will also include information on Carers NSW programs and services, as well as external pathways for supporting carers.
