

University of Western Sydney - PhD Research

Are you able to help with some important research?

- . Are you over 18 years of age?
- . Did one or both of your parents have a mental illness during your childhood?
- . Did your parent require hospitalisation in a mental health hospital?
- . Are you a parent yourself?
- . Do you speak fluent English?
- . Can you spare 1-2 hours of your time to tell your story?

If you have not been diagnosed or treated for mental ill health yourself and can answer 'yes' to the questions above, please contact Gill Murphy on (02) 4736 0337 or g.murphy@uws.edu.au

All enquiries are treated in confidence.
